

Project Title: CodeName Falcon

Team Members: Angel, Dimpal, T.J., Trevor

Proposal:

- We propose to evaluate the interest rates and how they fluctuate over time.
- We will analyze the relationship of the fluctuations with the political party that is in office and determine if there is a pattern to the rate fluctuations.
- We will see which political party has the highest inflation rates on primary household products

Technologies:

We plan to use Python Pandas, Tableau, and SK Learn/Sci Kit
